Message of H.E. Frederik Develter, Ambassador of the Kingdom of Belgium to Serbia

It is with great pleasure that I welcome you to this year's edition of the BSBA's directory.

This publication is far more than a simple listing of names and contacts – it is a reflection of the strength, diversity and ambitions of both Belgian and Serbian business operators.

Within these pages, you will find not only the members that form the backbone of the BSBA, but also a network of partners that play an important role in the economic landscape of Serbia and sometimes even in the wider Balkan region. In today's rapidly changing environment, no business can thrive in isolation. By bringing together enterprises, large and small, established institutions and emerging ventures, we foster connections that generate opportunities, ideas and lasting partnerships.

This directory is a tangible expression of this endeavor: a tool designed to help you discover new contacts, strengthen relationships and build bridges that will benefit both business and the Serbian and Belgian community.

The recent years have reminded us of the resilience and creativity required to succeed in uncertain times. Many of the BSBA's members had to adapt to new realities in a challenging environment. But in many cases our ties came out stronger: our bilateral trade surpassed the 1 billion Euro-cap last year, to give you just one example. As we look to the future, the BSBA's commitment remains firm: namely to support its members the best it can with resources, representation and a collective voice. Its 15th anniversary is proof that its mission to actively support its members is not an idle one.

As a newly arrived ambassador, it will be my honor to support the BSBA and to contribute to this noble mission.

Message of Marijana Milošević Tufegdžić, Economic and Trade Counsellor of Belgium

Like Belgian chocolate, strong business relationships are best when carefully crafted.

This year, BSBA proudly celebrates its 15th anniversary – fifteen years of connecting people, supporting businesses, and fostering trust between Belgium and Serbia.

Belgian companies in Serbia are more than investors – they are bridges between two dynamic business worlds. Their achievements inspire new ventures and demonstrate that Serbia offers real opportunities for growth. We actively connect Belgian and Serbian entrepreneurs, facilitating cooperation and opening doors to new opportunities.

Belgium may be small in size, but it thinks big in business – a nation whose prosperity is built on global trade, innovation, and partnerships.

We provide Belgian businesses with clear and practical information about Serbia's market, its advantages, and its potential. Continuous progress, together with numerous examples of successful cooperation, remains the best guarantee for future success and a strong invitation for new partnerships to develop.

This Directory offers a snapshot of the Belgian economic presence in Serbia and the BSBA community – companies and professionals from diverse sectors, all committed to building lasting, mutually beneficial relationships. By presenting concrete opportunities and success stories, we continue to support growth and advancement – just like Belgium's legendary cyclists, always moving forward.

Message of Doc. dr Hugo A.M. van Veghel President of the Belgian-Serbian Business Association

Since 2010, the Belgian Serbian Business Association has been committed to fostering collaboration, service, and sustainable growth among companies and professionals associated with Belgian and Serbian small and medium enterprises (SMEs). Our resilience as an association is rooted in flexibility, a willingness to innovate, and strong, enduring networks—qualities highlighted by our role as a co-founder of CEBAC (Council for European Business Associations and Chambers), where we actively nurture cross-border cooperation and shared ambitions.

We hold ourselves to high standards of business ethics based on honesty, openness, and accountability. While we firmly believe that hiring decisions should be driven by competence, we equally embrace diversity and inclusion, which we see as vital both for social cohesion and organizational strength, enriching our business communities and ensuring a broad perspective in our collective endeavors.

In a world of constant change, we remain attentive to new opportunities and challenges. Moving forward, our primary goal is to reinforce SME support, drive progress in digital and green transitions, and broaden access to relevant knowledge exchange, training, and information—now and then, with fries, Belgian beer, and chocolate.

Thank you for being an essential or prospective member of our vibrant, diverse, and forward-thinking network. Together, we build lasting value for our businesses and societies.

Active in Serbia since: 2006

Contact person: Nebojša Dapčević, manager

Activity:

Only „a la carte” restaurant with international and national menu. Madera is located in the metropolitan area with a long history. Part of today's Boulevard of King Alexander - from Takovska to Beogradska street - was known as “Fišegdžijska čaršija” (Cornet market) because, by order of Prince Miloš Obrenović, this area has been designated for the sale of gun-powder cornets. The place where Madera restaurant stands today, had been occupied by a “kafana” called Smederevo - a gathering place of coachmen and blue-collars. Then, in the spirit of Modernism, a new building was erected whose lobby was populated by the restaurant Madera in 1937.

The story goes that the restaurant got its name as one of the regular guests brought a great wine from the Portuguese island of Madeira. Belgrade's bohemians, famous artists and journalists, which have been popularly called “maderaši”, gathered in our restaurant. Among them are Dr Aca Obradović, Predrag Milojević, Ljuba Tadić, Miroslav Radojičić, Den Tana, Miljan Miljanić, Slava Đukić, Ljubiša Vukadinović, Dragoslav Šekularac and others. Its current, modern appearance Madera got in May 2003.

Delatnosti:

Isključivo a la carte restoran sa internacionalnim i nacionalnim menijem. Restoran Madera se nalazi u gradskoj zoni duge prošlosti. Deo današnjeg Bulevara kralja Aleksandra od Takovske do Beogradske ulice bio je poznat pod imenom Fišegdžijska čaršija jer je, po naredbi kneza Miloša Obrenovića, taj prostor bio odrđen za prodaju baruta i fišeka. Na mostu gde se danas nalazi restoran Madera najpre je otvorena kafana Smederevo, gde su se okupljali kočijaši i amali. Potom je, u duhu moderne, podignuta višespratna zgrada čije je prizemlje 1937. godine krasila kafana – restoran Madera.

Priča kaže da je restoran dobio ime tako što je neko od gostiju doneo odlično vino sa portugalskog ostrva Madeira. U ovom restoranu okupljali su se gradski boemi, čuveni umetnici i novinari, koje su popularno nazivali “maderašima”. Među njima su dr Aca Obradović, Predrag Milojević, Ljuba Tadić, Miroslav Radojičić, Den Tana, Miljan Miljanić, Slava Đukić, Ljubiša Vukadinović, Dragoslav Šekularac i drugi. Današnji, moderan izgled Madera je dobila u maju 2003. godine.

Activity:

DataDrill helps life science and health-focused organizations make informed decisions faster by identifying operational gaps, bottlenecks, and optimization opportunities, and by building digital data tools that directly improve clients' business processes. Our focus lies with CROs, biotech teams, and digital health companies. Our services range from building data tracking, analytics, and visualization tools to setting up robust cloud infrastructures, as well as completing complex database integrations and mergers. We build prototypes, implement and develop new product features, and design entire software solutions. We create data automations and leverage AI integration tools and services to streamline manual operations.

Delatnosti:

DataDrill pomaže organizacijama iz oblasti nauka o životu i zdravstva da brže donose informisane odluke identifikovanjem operativnih praznina, uskih grla i prilika za optimizaciju, kao i izradom digitalnih alata zasnovanih na podacima koji direktno unapređuju njihove poslovne procese. Naš fokus je na CRO kompanijama, biotehnološkim timovima i digitalnim zdravstvenim firmama. Naše usluge obuhvataju izradu alata za praćenje podataka, analitiku i vizualizaciju, postavljanje robusne cloud infrastrukture, kao i kompleksne integracije i spajanja baza podataka. Razvijamo prototipove, implementiramo i razvijamo nove funkcionalnosti proizvoda, te dizajniramo kompletna softverska rešenja. Kreiramo automatizacije podataka i koristimo alate i servise za integraciju veštačke inteligencije kako bismo pojednostavili manuelne procese. koristimo AI integracione alate i servise za pojednostavljenje manuelnih procesa.

Activity:

Dataplan relieves companies with targeted intelligent solutions and permanent support. It is our goal to grow our customers smartly and to make their IT resilient for the future. We are therefore more than just an external technology partner, we act as the IT team of our customers.

Due to the increasing digitalization of society and the business community, the competitive position of many companies today is directly linked to the (in) ability to integrate IT infrastructure, IT services and cloud solutions in a professional way into day-to-day operations. This requires a great effort that these organizations usually cannot deliver alone. Reliable IT partners are needed who can support and strengthen companies in order to continue to grow in a sustainable manner.

Dataplan therefore offers quality products and services that ensure complete unburdening of all IT needs of our customers.

Our niche software strengthens brokers and owners in efficient and organic management of multiple properties.

Delatnosti:

Dataplan rastereće kompanije ciljanim inteligentnim rešenjima i stalnom podrškom. Naš cilj je pametan rast klijenata, kao i to da njihov IT učinimo spremnim za budućnost. Zbog toga smo više od spoljno-tehnološkog partnera, mi delujemo kao IT tim naših klijenata.

Zbog sve veće digitalizacije društva i poslovne zajednice, konkurentna pozicija mnogih kompanija danas je direktno povezana sa (ne)mogućnošću integrisanja IT infrastrukture, IT usluga i cloud rešenja na profesionalan način u svakodnevne operacije. To zahteva velike napore, što ove organizacije obično ne mogu same da ostvare. Potrebni su pouzdani IT partneri koji mogu da podržavaju i ojačavaju kompanije kako bi one nastavile da se razvijaju na održiv način.

Zbog toga Dataplan nudi kvalitetne proizvode i usluge koje rasterećuju naše klijente u pogledu svih IT potreba.

Naš niche software osnažuje posrednike i vlasnike u učinkovitom i organičkom upravljanju.

Activity:

ESEM is a bold and innovative international Business School bringing world-class executive education to developing regions, like MBA programmes.

ESEM business school has been conceptualised and designed in response to challenges to existing business education standards. The founders come from academia and business and they were inspired by the fundamental and concrete impact that business education and MBA programmes bring to individuals and organisations. ESEM is driven by its mission of nurturing a new generation of business leaders and making a social impact having the business education as a foundation for responsible and sustainable business practices.

ESEM is different from other business schools in its innovative pedagogy and dedicated engagement of international and regional world-class faculty. Deploying the ESEM Method, ESEM provides premium, personalised business education experience, grounded in industry needs and real business issues and opportunities. The programmes are held on several Europe-wide locations including Belgrade, Milan, Rome, Paris, Brussels, etc.

ESEM programmes are carefully designed to unlock potential at any stage of individual's development journey. They range from immediate, specific knowledge-boosting solutions to extended time investment for a transformational journey in all aspects of leadership and management with the ESEM Executive MBA.

Delatnosti:

ESEM je hrabra i inovativna biznis škola koja donosi poslovno obrazovanje svetskog kvaliteta zemljama u razvoju.

ESEM biznis škola je osmišljena i konceptualizovana kao odgovor na izazove postojećih standarda poslovnog obrazovanja. Osnivači dolaze iz akademske i poslovne zajednice i bili su inspirisani fundamentalnim i konkretnim uticajem koji poslovno obrazovanje i MBA programi donose pojedincima i organizacijama. ESEM se rukovodi misijom da razvija novu generaciju poslovnih lidera, kreirajući širi društveni uticaj time što poslovno obrazovanje postaje osnova odgovornog i održivog poslovanja.

ESEM se razlikuje od drugih biznis škola po svojoj inovativnoj pedagogiji. Primenjujući ESEM metod, škola pruža vrhunsko, personalizovano iskustvo poslovnog obrazovanja, zasnovano na potrebama industrije i stvarnim poslovnim problemima i mogućnostima.

ESEM programi su pažljivo dizajnirani da u potpunosti razviju potencijal mladih lidera. Oni se kreću od kraćih fokusiranih programa za specifične edukativne potrebe u određenoj oblasti, do dužih, istinski transformativnih programa u svim aspektima liderstva i upravljanja kroz ESEM Executive MBA.

EyeSee is one of the fastest growing behavioral research companies in the world, based in New York, Antwerp, Paris, London, Belgrade, Mexico City and Singapore. We use accessible remote behavioral methods in combination with conventional to unlock next level consumer insights with the highest predictive value. Through highly effective methods such as online eye tracking, facial coding, virtual shopping, and survey, we measure the impact of shopper marketing, advertising, digital solutions, and innovations. For research purposes, respondents use their own devices (computers and mobile phones), thus cutting down time, costs, and enabling testing on a global scale. Our teams conduct studies in more than 40 countries.

Delatnosti:

EyeSee je jedna od najinovativnijih i najbrže rastućih globalnih kompanija za istraživanje tržišta, koja već sedam godina uspešno posluje u Njujorku, Parizu, Londonu, Antverpenu, Singapuru, Meksiku sitiju i Beogradu. Kombinujemo remote behavioralne metode istraživanja sa konvencionalnim kako bismo stekli uvid u ponašanje potrošača i na osnovu čega donose odluke o kupovini – na koji način vide i percipiraju reklamne poruke, proizvode, prodajne police, veb-sajtove, videoe i mnoge druge komercijalne materijale. Kroz visoko efektivne metode kao što su online eye tracking, facial coding, virtuelnu kupovinu i upitnike, merimo uticaj šoper marketinga, advertajzinga, digitalnih rešenja i inovacija. Učesnici istraživanja koriste svoje uređaje (računare i mobilne telefone), tako smanjujući troškove, vreme potrebno za sprovođenje istraživanja i omogućujemo testiranje širom sveta.

Activity:

Tasić & Partners is a law firm focused on corporate law, providing legal support to companies throughout all stages of their business. We offer services in company establishment and registration, preparation of legal acts, corporate changes etc.

We are pioneers in PPP projects, with experience in energy, waste management, infrastructure, and environmental protection – providing support from the creation of the legal framework to project implementation.

We advise clients on ESG compliance, focusing on environmental issues, labor law, and corporate governance.

We work with credit institutions, brokerage firms, investment funds, and AIFs regarding capital markets regulations and commercial contract drafting.

We provide support in labor law, tax compliance, and employment of foreign nationals, including obtaining residence and work permits. We are active in the IT sector, digital business, and intellectual property protection.

We have significant experience in M&A, stock exchange transactions, privatizations, and restructuring, as well as in litigation, arbitration, and mediation.

We also advise in real estate, public procurement, and environmental law.

Delatnosti:

Tasić & Partneri je advokatska kancelarija fokusirana na privredno pravo i pravnu podršku kompanijama kroz sve faze poslovanja. Pružamo usluge osnivanja i registracije firmi, pripreme akata i statusnih promena. Pioniri smo u oblasti JPP, sa iskustvom u projektima iz energetike, upravljanja otpadom, infrastrukture i zaštite životne sredine – uz podršku od izrade pravnog okvira do realizacije projekta.

Savetujemo klijente u vezi sa ESG usklađenošću, sa fokusom na ekologiju, radno pravo i korporativno upravljanje.

Radimo sa kreditnim institucijama, brokersko-dilerskim društvima, investicionim fondovima i DZU, u vezi sa propisima tržista kapitala i ugovaranjem komercijalnih aranžmana.

Pružamo podršku u oblastima radnog prava, poreske usklađenosti i zapošljavanja stranaca, uključujući pribavljanje boravišnih i radnih dozvola.

Aktivni smo u IT sektoru, digitalnom poslovanju i zaštiti intelektualne svojine. Imamo značajno iskustvo u M&A, berzanskim transakcijama, privatizacijama i restrukturiranju, kao i u sudskim sporovima, arbitražama i medijacijama. Takođe savetujemo u oblastima nekretnina, javnih nabavki i zaštite životne sredine.
